details page 10

Hip workbench
for creative role play
in your
kindergarten!

Dear customers,

2021 was a challenging year for all of us. We hope that you made it through this difficult phase well.

We are happy to remain your reliable partner who is taking care of your needs and belongings also in the future. In order to ensure and intensify this support we worked on an important project in 2021. We were able to finalise our new warehouse system which is working very well and fast after some big issues and delivery delays also caused by Covid 19. But now we are happy to inform you that we are well prepared for a quick delivery of your orders.

Furthermore, Betzold has taken the chance to establish a comfortable B2B-Shop in addition to our current product catalogue.

Profit from the following advantages by visiting our website **www.betzold-educational.com**:

- › Access to the complete retail range of about 9.000 products of Betzold
- › Simple search function for products in the complete range
- › Advertising of novelties, sales promotion or interesting product information
- › View of availability of products and estimated delivery time (if not in stock)
- › Notification of YOUR purchasing price plus the RRP of the manufacturer
- › Information where to download pictures, manuals and documents
- › All relevant product information at a glance
- › Simply use your excel orders for direct import into B2B-Shop and get direct availability information
- › Own customer account with order history (beginning from the start of the B2B-Shop)

Betzold is ready to continue to be YOUR reliable partner in the future and we look forward to working with you. Should you have any questions, please do not hesitate to contact us.

Yours sincerely

Ulrich Betzold

CLASSROOM MANAGEMENT

Daytime Transparency Clocks

The daytime transparency clocks can be mounted on the board with the help of a magnet or they can be hung up on the wall with a nail. The clocks can be set to important times in the course of the day, e.g. morning exercise, long break, lunch or end of school. Each clock is labelled with a tag of the corresponding event. The children can synchronise the times and breaks or any other times themselves with the classroom clock. Like this, the clocks of your pupils can give an overview of which time of the day it is now.

Content:

- › 3 clocks (magnetic, with extra eyelets)
- › 3 blank cards for labeling (magnetic, with extra eyelets)

762878V91 Set of 3

Ticket System

The ticket system will support you and your students when working on stations or on a desk providing study material for self-guided learning. It allows your class to learn in a structured way. After having used it several times, the procedure becomes a ritual. Often only a little number of assignment games or laying cards is available. Therefore, it is ideal to implement working at stations or at a desk providing study material for self-guided learning by using a ticket system. In order to be allowed to travel by train, each passenger needs a ticket - as soon as all tickets are sold, the train is full. A certain number of tickets is assigned to each station. By this assignment you and your class will have a great overview of available and assigned tasks.

Content:

- › 1 large station picture
- › 6 stand-ups
- › 6 station cards for stand-ups
- › 36 tickets (6 per station/colour)
- › 18 passengers for station cards

762880V91 Set of 67

Voice-Control

The voice-control clearly visualizes the desired volume in the classroom. Thanks to the easily movable arrow, you can simply and quickly adapt it to the different work phases of the lesson. The English translation is printed on the back. Thus, the voice-control can also be used in foreign language lessons.

Contents:

- › 1 voice-control sign, magnetic and with eyelets
- › 1 arrow (magnetic)

762879V91

MACNETIC

In Between Times

The everyday life in school seldom passes just the same as it had been planned in the evening before: The colleague is late, a parent is standing at the door unexpectedly, a child needs your help or the money for the class checkout needs to be collected rapidly. In such moments the teachers might quickly be stressed and the class often tends to become restless. Once the in between times signs have been introduced, it is clearly visualized how children should occupy themselves in such moments.

Content:

- › 6 magnetic picture cards with eyelets
- › 3 blank cards for labeling (magnetic, with extra eyelets)

762883V91 Set of 6

MACNETIC

FURNITURE

The image displays a collection of 26 square sound absorbers, each featuring a letter of the alphabet from A to Z. The letters are arranged in a grid, with uppercase letters on the front and lowercase letters on the back. The absorbers are made of a white, open-pored material. To the right of the grid, there are two small piles of silver-colored metal clips used for assembly. The (xilent logo is visible in the top right corner.

A-B-C Sound Absorber Set

These 26 sound absorbers with an open-pored material structure absorb sound and reduce background noise and volume. The pore size is precisely adapted to the frequency of the human voice. The A-B-C sound absorber set is frameless, providing you with a variety of ways to set it up. The acoustic material, akustikTex®, is printed with the letters from A to Z: Uppercase letters are on the front and lowercase letters are on the back.

Content: 26 sound absorbers, assembly fixtures (carabiners/eyelets)

Dimensions (H x W x D): 50 x 50 x 2 cm

Material: 100% polyester

763094V91

The image shows a young girl with long brown hair wearing pink and black noise-reduction ear muffs. To her right, three more pairs of ear muffs are displayed in different colors: blue, pink, and green. The ear muffs have a black headband and large, cushioned ear cups. A red starburst graphic in the top left corner indicates that this product is a 'BEST SELLER'.

Kid's Noise-Reduction Ear Muffs

In addition to minimizing noise, the headset also helps with concentration during silent work. Even during music lessons the ear muffs may protect against hearing damage, as well as in the free time, for example when visiting a concert.

Adapts to any head shape, for children with smaller heads and children or teenager with a slightly larger head. The lateral height adjustment can be adjusted quickly and easily. In addition, the ear muffs can be folded to save space and are so easy to stow. The headband is made of 100% polyethylen (PE) and the ear protection cushion is made of imitation leather. Helps children to not be distracted by disturbing noises.

COMFORTABLE

Set of 5

with practical
lids

Felt Tray Set

With the set of 2 small and 1 large felt trays, each with lid, you create new storage space. Small parts, craft materials, sewing accessories, teaching materials and much more will find a new place and are protected from dust and dirt. The lids can alternatively be used as a presentation plate, tray, coaster or cube base.

Dimensions (H x W x D): large felt tray (with lid):

5 x 27 x 19 cm

Material: felt (100% polyester)

762702V91

Felt Basket

Toys, office supplies, stuffed animals, craft materials and much more – the large felt basket is ideal for space-saving storage of all kinds of things! With its subtle design in the colours grey and turquoise, the basket fits perfectly into any room. By means of the 2 carrying handles, the felt basket can be transported comfortably. The felt makes it particularly flexible, but still dimensionally stable. Stack empty baskets conveniently on top of each other, so that they do not take up unnecessary space.

Height: 18 cm, top: 38 cm

Material: felt (100% Polyester)

759151V91

Felt Boxes Set

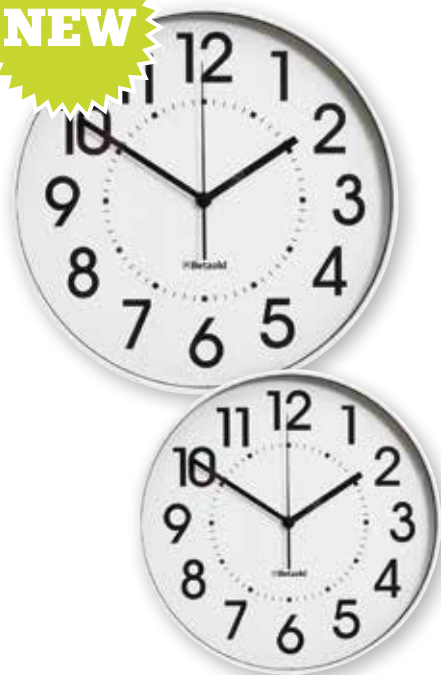

Felt boxes in a set of 2 for many uses. Thanks to the removable bottom, the folding boxes are enormously stable, but can also be folded up to save space when needed. Made of robust polyester felt. Exterior colour light grey, interior colour light green.

Dimensions (H x W x D): 15 x 31 x 24 cm

Material: felt (100% Polyester)

NEW

Wall Clock

Wall clock with precise wireless technology for classrooms and offices. On account of its minimalistic design, the large numbers and the time can be read at a glance. In addition to providing the precise time, the radio signals automatically take care of the switch to and from daylight savings time.

1x (1.5 V) battery type AA (Mignon LR6) required, not included in the scope of delivery.

Material: 100% polyethylene (PE), metal

All Warning Notice: 1 (page 32)

761635V91 Ø 31.5 cm

761663V91 Ø 40 cm

NEW

"Banana" Shoe Trolley

This funky shoe trolley in the shape of a banana tree is guaranteed to brighten up your cloakroom. Use the rollers (with brakes) to move the trolley wherever you need it. The trolley can neatly store 25 pairs of slippers, shoes or boots. Bags, scarves, hats and more can also be stored on the banana hooks. The detachable dirt trapper mat catches sand, water and mud and protects the wood. The trolley is made from sturdy, varnished MDF.

Maximum load: 100 kg

Dimensions (W x H): 68 x 128 cm

Material: MDF

Easy self-assembly

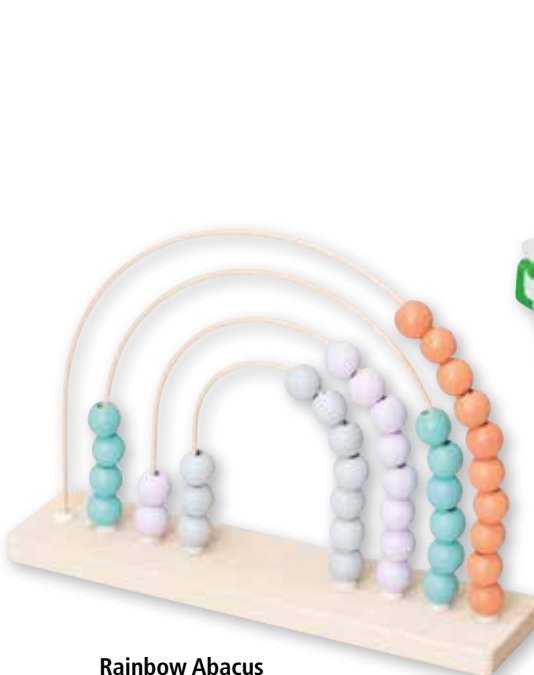

763245V91

PRETEND PLAY

Crocodile Wall Toy, 5 pieces

By playing with the wall toy, young children can improve their fine motor skills, hand-eye coordination and concentration while learning the different colours, instruments and numbers. Because the crocodile is 174.5 cm long, multiple children can easily play with it at once. Assembly fixtures are included with the delivery. Suitable from 18 months.
Dimensions (W x H): 174.5 x 10 cm
Material: MDF
Age 18 months+
97245V91

Rainbow Abacus

Rainbow-shaped abacus with 10 balls per row in pastel tones. Ideal for starting sums and improving motor skills.

Rainbow Felt Beads, 12 Colours

The 240 felt beads in 12 beautiful rainbow colours made of 100% felt wool are ideal for puzzle games, colour matching, the seasons circle and first calculation. The felt has a self-cleaning function and is also washable at max. 30 °C in the wool setting. The sheep's wool beads are also lighter and therefore quieter to play with, unlike wooden balls.

Ø 2 cm

Material: 100% sheep wool (felt)

Warning Notice: 1 (page 32)

764374V91 240 pieces

Felt Bowls

The felt bowls in the practical set of 7 are ideal for children from 12 months – in free play or as a sorting and laying game, the wonderful bowls offer creative uses for building, sorting and stacking. The beautiful rainbow colours are also perfect for learning colours. Can be ideally combined with other felt products from Betzold. The pure felt wool has a self-cleaning function and also offers a quieter alternative to other bowls made of plastic.

Dimensions: Ø from 6 to 14 cm, height: from 6 to 8 cm

Material: 100 % sheep's wool (felt)

763356V91 Set of 7

Rainbow Felt Pebbles

These beautiful felt pebbles made of 100% sheep's wool invite children from 3 years to creatively stack, sort, balance and count. Through the solid felt core inside the pebbles and the different sizes and colors, the little ones can build individual works of art. The bright rainbow colours offer endless possibilities for play and learning.

Dimensions: Ø 5 to 13 cm

Material: 100% sheep wool (felt)

Giant Magnifying Beaker

The giant magnifying beaker is perfect for adventures, with 3x magnification power. Safely observe insects, tiny aquatic creatures and more, then easily release them again.

Dimensions: height: 11.3 cm, Ø 10.5 cm

Material: 100% polyethylene (PE)

Warning Notices: 1, 34 (page 32)

764005V91

The sand shovel is available in 5 modern pastel colours. The shovels are made from sustainable treeNside material. This is a bioplastic of 100% polyethylene (PE) made from fine wood fibres and makes the sand shovel a sustainable alternative to similar sand toys made from conventional 100% polyethylene (PE). In order to protect the environment, fossil resources are avoided as far as possible during production. The handle of the flour shovel fits well in the child's hand and is easy to grip. Particularly robust and resistant, ideally suited for daily use in educational institutions. Made in Germany - manufactured in our Betzold 100% polyethylene (PE) production.

Sand Shovel Made of Bioplastic

BIOPLASTIC

The spades in modern pastel colours are ideal for the sandbox. Extra long handle and handy grip, ideal for children's hands. The spades are made of robust, sustainable treeNside material. This consists of bioplastic with 100% polyethylene (PE) granulate with visible wood fibres, whose production largely does without fossil resources and thus protects the environment in the best possible way. Thus, the spades are a sustainable alternative to conventional spades.

Sand Mould "Rabbit"

Made from durable 100% polyethylene (PE).

Picture Cards for Kamishibai "Hydrological Cycle"

Show your children the water cycle with the 12 hand-drawn Betzold picture cards with child-friendly factual information and a loving story. Text template in DE, EN and FR is printed on the back of each picture and also available as a download for digital use. Picture cards suitable for the Kamishibai storytelling theatre.

Dimensions (W x H): 42 x 29.7 cm

Material: cardboard

764635V91

STORYTELLING

Story Pebbles "Motley Initial Sound Pictures"

These 26 story pebbles offer creative learning fun for children from 5 years. They are versatile and can thus be individually adapted to the learning requirements of your children. The alphabet can be practiced and consolidated playfully with these narrative pebbles through the initial sound pictures. Instructions with many creative ideas for versatile applications are included.

Dimensions pebble (H x W x D): 1.5 x 5 x 3.8 cm

Material: wood

760824V91

Story Pebbles "Pirates"

The pirate story pebbles offer creative learning fun for children from 4 years. They are flexible to use and can therefore be individually adapted to the learning requirements of the little ones. Through the colourful motifs, the little pirates are not only motivated to tell stories. Instructions with many creative ideas for versatile applications are included.

Dimensions pebble (H x W x D): 1.5 x 5 x 3.8 cm

Material: wood

763191V91

Counting Pebbles "Ladybird"

With these 11 counting pebbles, children from the age of 4 years playfully develop their first arithmetic skills. The colourful ladybirds with 0 to 10 points on their wings are ideal for exploring, adding and subtracting numbers. The symmetrical arrangement of the dots can also introduce the topic of symmetry in an age-appropriate way. You can therefore flexibly vary the difficulty of the tasks and adapt them to the learning requirements of your children.

Dimensions per pebble (H x W x D): 1.5 x 5 x 3.8 cm

Material: wood

763190V91

Story Pebbles "Farm"

These 17 story pebbles on the subject of farms offer creative learning fun for children from 4 years. You can use the colourful pebbles in a variety of ways and thus adapt them to the individual learning requirements of your learning group. The story pebbles provide valuable impulses for storytelling. You will find further creative implementation possibilities in the enclosed instructions.

Dimensions pebble (H x W x D): 1.5 x 5 x 3.8 cm

Material: wood

763192V91

COLORFUL CLASSROOM

Betzold

COLORFUL CLASSROOM

Betzold

Timeline for Tenses

Only in primary school children develop a more comprehensive understanding of how time works. Working with the timeline for tenses aids them in putting the tenses in order and using them.

Content: 1 magnetic timeline for tenses, 5 magnetic signs with tense names, 5 magnetic pictures.

Dimensions: timeline for tenses (W x H): 180 x 12 cm, pictures (W x H): 21 x 14.8 cm (A5), arrows (W x H): 21.9 x 7 cm

Material: magnet

762881V91

Handwriting House – Writing Lines Set, Magnetic

4 magnetic sheets with writing lines divided into 3 parts. Write on the sheets with any whiteboard marker (not included) and simply erase after. The 3 sections are clearly separated by a grey central band.

Content: 4 magnetic sheets (2 with house, 2 without house)

Dimensions (W x H): 29.7 x 20.7 cm

Material: 100% polyethylene (PE)

759540V91

MAGIC

Magic Hat

Motivating, fun and self-correcting! Using a given deck of cards, the child inserts the cards (question side up) into the hat, says the answer and the card is magically flipped to the answer side as it appears below.

Height: 24 cm. Delivery without cards

87085V91 Blue

763174V91 Black

Matching playing cards can be found at
www.betzold-educational.com

Word Types – Quiz Cards

This sorting game contains category cards and sorting cards with a variety of words. These cards/words must be matched up with the applicable category cards: "verb", "adjective" and "noun". If all of the cards have been sorted, a solution pattern around the edge of the cards can be used by the children to independently check their answers. Quiz cup not included.

Content: 3 category cards (verb, adjective and noun), 99 sorting cards with a variety of words

Packaging dimensions (H x W x D): 6 x 6 x 5 cm

Material: card

763160V91

Protect the Climate – Quiz Cards

This sorting game contains category cards and sorting cards with short statements, for example "buy seasonal fruit". This card/statement must be matched up with the applicable category card that says whether it is good or bad for the climate. If all of the cards have been sorted, a solution pattern around the edge of the cards can be used by the children to independently check their answers. Quiz cup not included.

Content: 2 category cards (good for the climate/bad for the climate), 100 sorting cards with short statements

Packaging dimensions (H x W x D): 6 x 6 x 5 cm

Material: card

763162V91

Which Article? – Quiz Cards

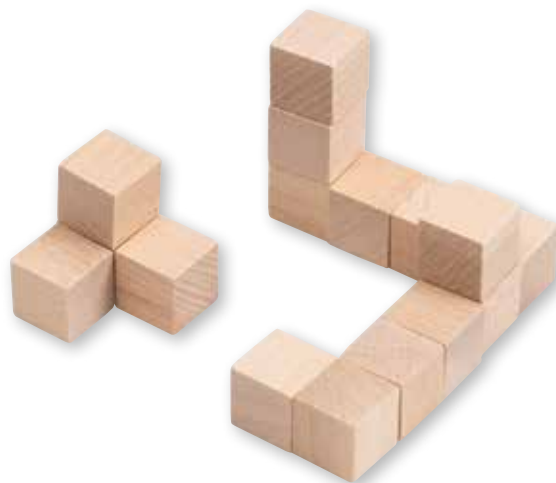

This sorting game contains category cards and sorting cards with objects such as "ball". Each sorting card must be matched up to the category card with the correct German article. If all of the cards have been sorted, a solution pattern around the edge of the cards can be used by the children to independently check their answers. Quiz cup not included.

Content: 3 category cards (with the articles "der", "die" and "das"), 116 sorting cards with objects (e.g. "ball")

Packaging dimensions (H x W x D): 6 x 6 x 5 cm

Material: card

763164V91

Wooden Cubes, Natural Colour

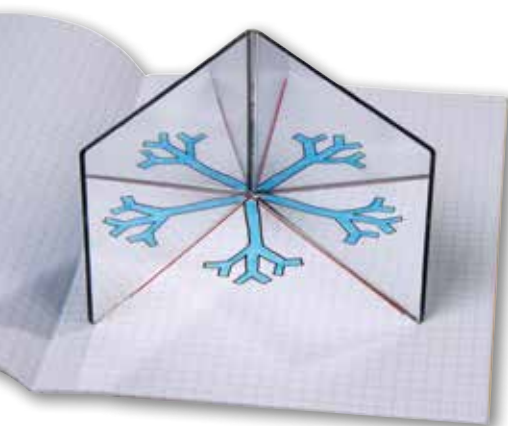

These 150 natural colour wooden cubes enhance maths lessons and inspire a variety of creative activities. All sides of each wooden cube are 2 cm long. Perfect for creating all kinds of shapes and structures.

Cube dimensions: 2 x 2 x 2 cm

Material: wood

Warning Notice: 1 (page 32)

761794V91 Set of 150

Double Mirror, 20 x 7 cm

With two flexible parts. Dimensions (W x H): 20 x 7 cm

Warning Notice: 2 (page 32)

763433V91

Geoboard, 5 x 5 cm

Transparent, with 25 pins in a square grid. Can be used on the OHP.

Dimensions (H x W x D): 1 x 15 x 15 cm

Material: 100% polyethylene (PE)

Warning Notice: 42 (page 32)

763422V91

Tape Measure, 150 cm

Made of tear-proof fibre glass. 1.5 metres

763430V91

EURO Counting Money, Magnetic

This EURO magnetic counting money is perfect for learning how to use money for the first time. The handy magnetic mathematical symbols can be used to set up and solve counting problems directly on the blackboard.

Content: 115 parts: Euro notes: 5x € 200, 10x € 100, 5x € 50, 5x € 20, 10x € 10, 5x € 5

Euro coins: 5x € 2, 10x € 1

Cent coins: 5x 50 Ct, 5x 20 Ct, 10x 10 Ct, 5x 5 Ct, 5x 2 Ct, 10x 1 Ct

Mathematical symbols: 2x -, 2x :, 2x x, 4x +, 4x -, 6x =

Dimensions: coins and mathematical symbols: Ø 5–8 cm; notes: approx. 15–24.4 cm long; approx. 7.6–10.2 cm wide

Material: 100% polyethylene (PE), magnet

763310V91 Set of 115

School Set Square

The protractor and degrees are marked in yellow to make drawing and reading angles easy. The centimetre ruler on the longest side can be used to accurately measure and draw lengths. The millimetre markings in the centre of the set square aid precise translation and measurement. The inking edges (bevelled) allow for precise and easy drawing.

Dimensions (H x W x D): 0.4 x 19.8 x 9.3 cm

Material: 100% polyethylene (PE)

763432V91

Set of 10

Handle for Set Square and Ruler

Length: 10 cm

763438V91

Multi-Split Shaking Box

To set up and satisfy equations

The green box can be used with two different transparent insets. One inset offers 2, the other one 3 sections to practice numeracy with 2 or 3 summands. Choose one inset and shake the beads. After counting the visible beads, set up an equation and calculate the covered subset. By sliding the lid and counting the uncovered beads, the box is self-correcting.

Dimensions (H x W x D): 4.7 x 7.3 x 1.7 cm

Material: 100% polyethylene (PE)

All Warning Notice: 5 (page 32)

763472V91 Set of 2

763448V91 Spare Beads Multi-Split, 200 pieces

Sorting Box with 24 Numerical Dice

The numerical dice are perfect for teaching children the decimal system through play. Pupils can roll the dice to form numbers in the 1000s and then learn how to write them. The dice are colour-coded by unit size to match the numeral system. The 24 dice come in a handy sorting box.

Dimensions: sorting box (H x W x D): 3.2 x 21 x 12 cm, dice height: 3.5 cm

Material: 100% polyethylene (PE)

Warning Notice: 1 (page 32)

762783V91

Arithmetic Chain 20

With the help of this arithmetic chain, your students will solve the first arithmetic operations in the number range up to 20 and learn to recognize and divide quantities. The chain is an optimal illustration material and helps especially school beginners in the introduction to mathematics. The first numbers are learned multisensory with the eyes and fingers and simple calculations in the number range 20 are easily understood. In addition, the arithmetic chain can be quickly placed in the school bag and thus also used at home as an arithmetic aid for homework. By moving the balls, children have more fun with arithmetic and train their fine motor skills along the way.

50 cm long, beads: Ø 11 mm

763437V91 Red-blue, 50 cm, set of 2

763436V91 Red-white, 50 cm, set of 2

85120V91 Red-blue, 70 cm, piece

85119V91 Red-white, 70 cm, piece

Minimum order: € 400,-

Number Bond Shaking Box "Tree"

... and ten "apples" will split into two collecting tubes, each with a scale. On the front side of the tree you can only see the content of one tube. Set up an equation and calculate the covered subset. The tree is self-correcting by turning it around and having a look at the content of the second tube. Due to the press-lock you can vary the number of "apples".

Content:

1 100% polyethylene (PE) tree (height 12 cm), 10 100% polyethylene (PE) beads

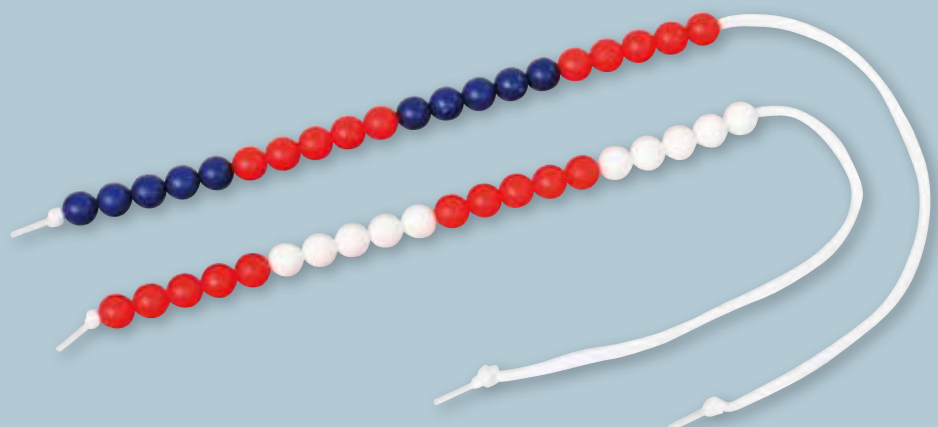

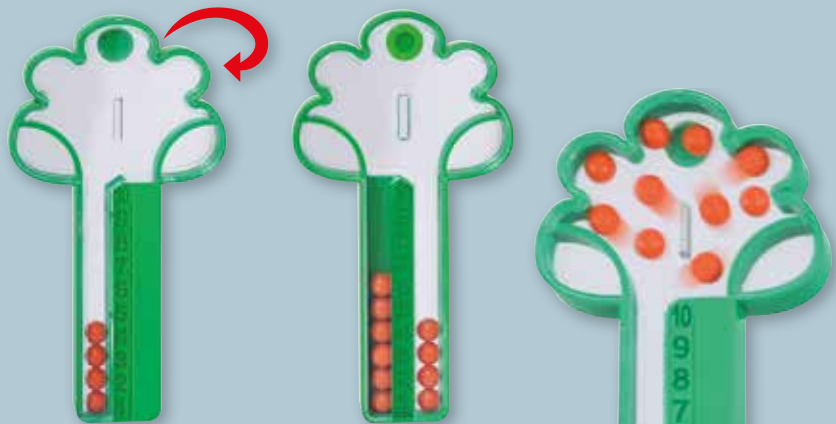

Dimensions (H x W x D): 12 x 6 x 1.2 cm

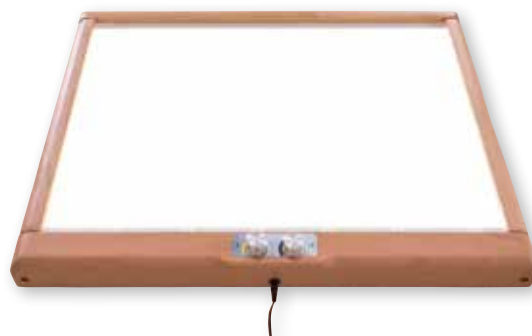

Material: 100% polyethylene (PE)

All Warning Notice: 5 (page 32)

763428V91 Set of 2

763448V91 Spare Beads Multi-Split, 200 pieces

Light Table

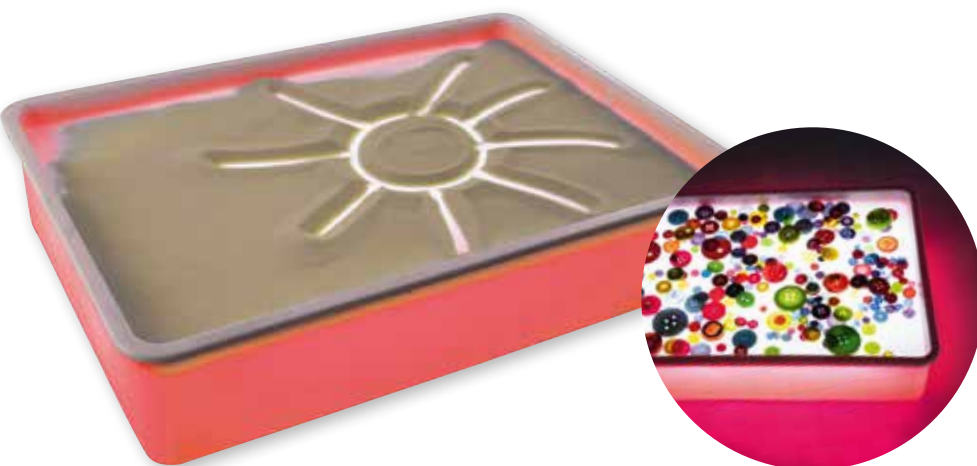

Ideal for experimenting with light, shadow, colours and shapes. The large, illuminated surface (57 x 42 cm) can be used by several children at once. Brightness and colour temperature can be set using the 2 rotary switches.

Dimensions (H x W x D): 5 x 63 x 50 cm

Material: 100% polyethylene (PE), metal

Warning Notice: 2 (page 32)

760786V91

Light Table

Unleash creativity on this light-up surface and create pictures with sand, trace designs or make patterns and collages with any transparent materials. A varied sensory experience for your children. Power cable with switch and USB A connection.

Dimensions (H x W x D): 9 x 40 x 27.51 cm

Material: 100% polyethylene (PE)

Warning Notice: 4 (page 32)

760271V91

Round Light Table

- › Extremely light and stable
- › The higher edge prevents sand, grains and other fine materials used to create images etc. from falling out.
- › Remote control with light change function is included

Multiple children can play at the same time.

Can be used as a nightlight

Dimensions: Ø 50 cm, height: 12.5 cm

Warning Notice: 2 (page 32)

760424V91

SCIENCE

Layer Puzzle: Lifecycle of a Girl

Four layers, 28 pieces

Dimensions (H x W x D): 2.2 x 18 x 30 cm

Four layers, 28 pieces

Dimensions (H x W x D): 2.2 x 18 x 30 cm

761586V91

Layer Puzzle

Layer puzzles promote the ability to concentrate, combine and imagine. Children gain insights into different developmental stages or into the inner structure of boys or girls.

- › Attractive, lovingly detailed presentations offer opportunities for conversation. Finding the right names for the puzzles.
- › Naming the development steps
- › Discuss time schedules. How much time has passed between the individual stages?

Each puzzle consists of five development steps or four layer puzzles. The first picture (first development step) is printed in the bottom of the puzzle frame. On the puzzle frame, there is an overview of all development steps on the top right.

The individual layers of the jigsaw puzzles can also be puzzled next to each other on the table, so that a direct comparison is visible or the differences or developmental steps become clear.

Combi Card Holder

Made from stable 100% polyethylene (PE), two-rowed, for cards, photos, notes, etc.

Stackable, optionally combinable, easy to assemble.

Content: 5 card holders in chosen colour
Measurements (H x W x D): 3.5 x 8.5 x 7.5 cm.
Delivery without cards.

Models

eduBotics Robotic & Coding micro:bit Set

The unique micro:bit Control Box can help teachers and students jump into the world of programming and modules with ease. Comprising over 250 parts, 22 exciting models can be built and then brought to life with MakeCode, a form of blockbased programming in JavaScript. Using this extensive set, students can be shown through play how electro-mechanics can be integrated into and used in their daily lives. Comes with a workbook and 18 exercises.

Content: 1 micro:bit Compatible Robots in storage box, 1 manual, 1 BBC micro:bit circuit board, 1 USB 2.0 cable
storage box (H x W x D): 21 x 44 x 24 cm

Material: 100% polyethylene (PE)

Warning Notice: 1 (page 32)

763156V91

Garden Tool Set

This 6-piece set makes tending to your raised and low flower beds and plant pots extremely easy. The sturdy polyethylene (PE) tools are pleasantly light and ergonomically designed, making them easy to hold. Once the work is complete, the 6 garden tools can be stored in the net bag, which is included with the set.
Content: 2 damage-proof shovels, 1 cultivator, 1 hoe, 1 dibber, 1 soil shoveler, 1 net bag
Dimensions of shovel (H x W x D): approx. 4 x 29 x 8 cm
Material: 100% polyethylene (PE)

763551V91

Flower Press

The press is ideal for a lot of crafty uses and suitable for use by adults and children. It is made from MDF wood and comes with screws, cardboard and blotting paper.
Content: 2 MDF (13 x 13 cm), 4 screws with wing nuts, cardboard and blotting paper.
Dimensions: (H x W x D): 3 x 13 x 13 cm
Material: wood
Warning Notice: 2 (page 32)

761023V91

Potato Plant Pot

Use the 2-in-1 potato plant pot to give children a very clear demonstration of how the plant and its tubers grow. To do this, you just need to lift up the inner pot, which gives a sneak peak into the different stages of growth.

Dimensions: height: 25 cm, Ø 30 cm
Material: 100% polyethylene (PE)

763558V91

Floating and Sinking Station Kit

Station kit for exciting experiments on floating and sinking. Each of the 6 stations has 4–5 tasks with a range of difficulty levels for differentiation and more in-depth experimenting.

Content: 1 station kit with materials for 6 station boxes, 6 station cards and 6 wooden card stands, 30 information cards and 1 instruction booklet. The station and information cards are water-resistant (laminated).
Dimensions (H x W x D): 22.5 x 42.7 x 31.2 cm
Material: 100% polyethylene (PE)

Warning Notice: 42 (page 32)

762521V91

Minimum order: € 400,-

Curriculum-related, exciting and easy to carry out - Suitable for group and individual work -
Brief instructions with vivid pictures and exciting experiments to download - Awakens our youngest
scientists' urge to explore

Betzold

Simple Circuits

This primary school set offers schoolchildren in year 3 and beyond the opportunity to discover when a bulb starts to light up by building their first circuit. The set contains enough material for 20 circuits without switches or 10 circuits with switches.

Store the set safely and securely in the box provided. Batteries (flat batteries) are not included. Content: 20 bulb sockets, 30 light bulbs (10x white, red and green, respectively), 10 pressure switches, 100 m PVC connecting wire.

Box dimensions (H x W x D): 7 x 19 x 15 cm

Material: metal, 100% polyethylene (PE)

Warning Notice: 2 (page 32)

763439V91

Easy STEM Experiments: Electrolysis

The materials in the „Electrolysis“ experiment box enable various experiments with guaranteed learning success. Suitable for grade 4 and up. The short instructions show clear pictures, give tips and explain step by step how to carry out the experiments. Designed for group and individual work as well as homeschooling.

Content

- › 1 kit for electrolytic cell
- › 2 one-way stopcocks
- › 3 syringes with luer lock tip
- › 2 crocodile clips
- › 1 9 volt battery
- › 1 piece of tubing
- › 1 solar motor
- › 1 propeller
- › 2 reagent tubes

Warning Notice: 42 (page 32)

762360V91

Betzold

Easy STEM Experiments: Chromatography

Experiment box on the topic of „Chromatography“ starting from grade 1. The box contains everything needed for the exciting experiments. Conceived for group and individual work. Also ideal for homeschooling.

Content

- › 1 measuring cup
- › 100 filter papers
- › 13 felt tip pens
- › 1 pair of scissors
- › 5 clothes pegs

Warning Notice: 42 (page 32)

762596V91

Easy STEM Experiments: Surfactants

The experiment box deals with the topic of surfactants and is applicable starting from grade 1. The materials are designed for individual and group work and can also be used in homeschooling. Step by step, the children learn about the effect of surfactants and explore what impact they have on the environment.

Content

- › 1 measuring cup, 100 ml
- › 2 measuring jugs with lids
- › 10 mixing spoons
- › 6 pipettes
- › filter paper
- › washing-up liquid

Warning Notice: 42 (page 32)

Hazard Warnings: C5, P1, P2, P11, P15, P19, P28 (page 32)

763377V91

Easy STEM Experiments: Ship Loading

The experiment box deals with the topic of ships and buoyancy and is applicable starting from grade 1. The materials are designed for individual and group work and can also be used in homeschooling. The experiments work step by step towards the game „Loading ships“ at the end of the instructions. Through this game, even younger children recognize how the shape of a ship affects its ability to float and load.

Content

- › dough
- › 1 spring scale
- › marbles
- › 1 measuring jug, 100 ml
- › 3 cubes
- › 1 material bowl

Warning Notice: 42 (page 32)

762359V91

Easy STEM Experiments: Determining Density

The experiment box on the topic of determining density is suitable for use from grade 5 and up. The materials are designed for individual and group work and are ideal for homeschooling. With exciting experiments you learn everything about the topic of density of different materials.

Content

- › 1 luer lock syringe
- › 1 closure
- › 2 pipettes
- › 1 film canister
- › 1 measuring beaker, 100 ml
- › 100 steel nails
- › 4 copper nails
- › 4 zinc nails
- › aluminium wire
- › 4 pressure seal bags
- › 5 cubes of different materials

Warning Notice: 42 (page 32)

762358V91

Easy STEM Experiments: Surface Tension

Experiment box for students with lots of exciting experiments on the topic of surface tension. Applicable beginning with grade 1. Students can quickly and easily investigate surface tension as a property of liquids in exciting experiments. The boxes are designed for individual or group work and are also ideal for homeschooling.

Content

- › 2 measuring beakers, 100 ml
- › 6 pipettes
- › 1 material tray
- › 100 paper clips
- › 1 petri dish
- › washing-up liquid, 100 ml

Warning Notice: 42 (page 32)

Hazard Warnings: C5, P1, P2, P11, P15, P19, P28 (page 32)

762357V91

Lab Coat

The lab coat is perfect for protecting young researchers' clothing from chemicals and stains. The sizes refer to the length and shoulder width of the lab coat.
Dimensions (W x H): 36 x 80 cm (size 140)
Lab coat length:

Size 128: 73 cm, 100% polyester

762189V91

Size 140: 80 cm, 100% cotton

Experimentation Kit Magnetism

Fantastic colourful selection of magnetic material for discovering magnetism.

Content: 1 giant horseshoe magnet, 4 magnetic wands, 14 magnetic marbles, 40 transparent counters with magnet ring, 1 horseshoe magnet

Warning Notices: 1, 5 (page 32)

761822V91

Warning Notices

- 1 WARNING! Not suitable for children under 3 years of age due to small parts. Danger of suffocation!
- 2 WARNING! To be used under the direct supervision of an adult.
- 3 WARNING! Not suitable for children under 3 years of age - possible risk of falling!
- 4 WARNING! Not suitable for children under 3 years of age. Strangling hazard! Long cord.
- 5 WARNING! Not suitable for children under 3 years of age due to small balls. Danger of suffocation!
- 6 WARNING! Choking Hazard! - Children under 8 years can choke or suffocate or uninflated or broken balloons. Adult supervision required. Keep uninflated balloons away from children. Discard broken balloons at once.
- 7 WARNING! Not suitable for children under the age of 3 year. Functional sharp points and/or sharp edges - risk of injury!
- 8 WARNING! This toy does not provide protection - possible risk of injury!
- 9 Notice: Please supervise the usage of the arts and crafts tools!
- 10 Notice: Functional arts & crafts tools. Possible risk of injury. No toy in terms of the Toy Safety Directory. Children under 14 years need to be supervised by an Adult.
- 11 WARNING! Not suitable for children under 10 months. Long hair.
- 12 Notice: Adult assembling required. Contains small parts. Choking hazard!
- 13 WARNING! Do not allow children to climb onto the product. Not enough stability.
- 14 WARNING! Keep away from fire.
- 15 Notice: Do not use in traffic, near steps, escalators, platforms, pools or sloping streets. Do not operate with high speed.
- 16 WARNING! Not suitable for children under 18 months of age. Choking hazard! Small parts.
- 17 WARNING! Protective equipment should be worn. Not to be used in traffic.
- 18 Notice: Decorating item. Not suitable for playing. Detachable small parts. Choking hazard.
- 19 WARNING! Not suitable for children under 3 years of age. Choking hazard! Small parts/small balls. Not to be aimed at persons or animals. Possible risk of injury by recoiling projectiles. Only use balls provided with this game.
- 20 Notice: Play kitchenware, tableware are sometimes made out of 100% polyethylen (PE) and are not suitable to be used for cooking. Do not heat them on the stove, oven or in the microwave. 100% polyethylen (PE) parts can melt. Wash all parts that come in contact with food with dishwashing detergent before usage.

- 21 Notice: Key chain. Not a toy.
- 22 Notice: Sports- and playing equipment. Warning! For using this it is assumed that the user possesses certain motor-driven skills and cautiousness. In case of doubt use with assistance in the beginning.
- 23 WARNING! Not suitable for children under 3 years of age - possible danger of hurting the fingers due to the presence of wheels!
- 24 WARNING! Do not use near high voltage power lines or by storm.
- 25 WARNING! Only to be used in water in which the child is within its depth and under adult supervision.
- 26 WARNING! Children under the age of 3 years should be supervised by an adult. Possible danger of falling!
- 27 WARNING! Not suitable for children under 36 months. Do not aim at eyes, face or animals. Possible risk of injury by ricocheting projectiles!
- 28 WARNING! Not to be used by children over 3 years of age. No sufficient stability. Not equipped with a braking mechanism.
- 29 WARNING! Not suitable for children under 18 months. Long cord/long chain. Strangulation hazard! Please retain this information for future reference.
- 30 Notice: Never burn tea lights/candles near or on flammable objects (flammable liquids, gasses or flammable powders). Never burn candles within reach of children or animals.
- 31 WARNING! Does not provide any protection against drowning. Only to be used under adult supervision!
- 32 WARNING! Not suitable for children under the age of 8 years. This product contains a magnet. Swallowed magnets can stick together in the intestines and cause severe injuries. Seek immediate medical help if the magnet is swallowed.
- 33 WARNING! To be used by only one person. Risk of collision!
- 34 WARNING! Magnifying effect - do not look directly into the sun!
- 35 WARNING! Not suitable for children under 12 months. Thrusting risk due to protruding parts!
- 36 Notice: The user of this model should be a steady bicycle rider and watch out for steady underground in the beginning.
- 37 WARNING! Only to be used by children of 10 years and older as electrical parts are accessible.
- 38 WARNING! Not suitable for children under 3 years of age. Protruding parts - impact hazard.
- 39 WARNING! No climbing element - to be used under adult supervision!
- 40 Notice: Do not fasten ropes, scarves etc. on the poles/openings. Strangling hazard.

- 41 WARNING! THIS IS NOT A TOY - TEACHING AID! Adult supervision is required. Seek immediate medical help when liquid inside the thermometer is swallowed.
- 42 Notice: Educational material - to be used under the direct supervision of an adult.
- 43 Notice: To be used under the direct supervision of an adult. Small parts.
- 44 WARNING! Not suitable for children under 8 years of age. Instructions are included and have to be followed under all circumstances.
- 45 WARNING! To avoid allergic reactions test the cosmetics on a small skin area firstly (crook of the arm). Should this cause any skin irritation, do not use this cosmetics. For external use only.
- 46 WARNING! This toy is not equipped with a braking system.
- 47 WARNING! Sports equipment - only children with weight above 20 kgs are allowed to use the equipment. It is recommended to use a helmet and protective vest.
- 48 WARNING! Not suitable for children under 3 years of age. Shear and pinch hazards.
- 49 Notice: This product can be used by children under 3 years for learning purposes. The children must be supervised by an adult at all times. Warning! Choking hazard. Contains small parts.
- 50 WARNING! Not suitable for children under 8 years. Contains plaster powder. Do not put into the mouth or apply on the skin. Plaster powder can irritate eyes, nose and throat. To be used under adult supervision.
- 51 WARNING! Not suitable for children under the age of 3. Small children are not able to control the snow slider. The supervision of an adult is required. Protective equipment is recommended (helmet, protectors, solid footwear, gloves). Consider others. Pay attention to obstacles.
- 52 WARNING! Not suitable for children under the age of 3. Strangling hazard - long cord. Only to be used on leveled grounds. It is not allowed to use near or on playground equipments (for example slides, swings, playground climbing frames, climbing houses or other playground equipments) as well as trees. Adult supervision is required.
- 53 WARNING! No buoyancy aid, no protection against drowning, not suitable for non-swimmers. Device can only be used by practiced swimmers. Adult supervision is required.
- 54 WARNING! Not to be used by children over 3 years of age due to the construction of product.
- 55 WARNING! Not suitable for children under 4 years of age. Small parts. Choking hazard.
- 57 WARNING! Do not use close to the ear. Misuse may cause damage to hearing.

Hazard Warnings

- C5: Warning! Causes serious eye irritation
P1: If medical advice is needed, have product container or label at hand.
P2: Keep out of reach of children.
P11: Wear protective gloves/protective clothing/eye protection/face protection.

- P15: In case of contact with eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P19: If eye irritation persists: Get medical advice/attention.
P28: Wash thoroughly after handling.

Classifying Animals

The creative vocabulary game with lifelike animal figures and 30 matching cards comes in a handy storage box. Using the game encourages children's creative thinking as well as their language skills, active cognitive learning and imagination. It is suitable for children from the age of 4 and thus offers plenty of storytelling and sorting occasions for kindergarten and elementary school.

Dimensions storage box
(H x W x D): 11.2 x 27.1 x 17.5 cm
Material: 100% polyethylene (PE)
